

Greystone Services is a General Contractor
Celebrating 20 Years of Quality Construction, Development and Design-Build Services
Our reputation for delivering projects on time within budget is second to none!

Greystone Services is both a SBA certified 100% women-owned and a SBA certified HUBZone general contractor located in Northwest Ohio. As a certified WBE/WOSB and HUBZone enterprise, we are pleased to help our customers with their supplier/vendor diversity programs. We are experts in all types of commercial, industrial and multifamily residential developments, with a unique specialization in the construction of state-of-the-art fuel/C-store sites. Our design-build background can take a project from inception to turn-key completion that ensures your project is proactively managed and safely completed, on schedule and within budget. We provide the best quality by having experienced and qualified people utilizing both cutting-edge technology and processes.

DIFFERENTIATORS

SELF PERFORMANCE Having highly skilled professionals on staff and certified subcontractors means that Greystone has the ability and flexibility to self-perform all aspects of our services. It also means we can quickly adapt to your project’s particular needs.

PARTNERSHIP INTEREST Listening to our client’s needs, helps us meet our goal to always serve the customer. Many times’ strategic collaborations and partnerships are in the best interest of the client for successful completion of the project. With collaborative projects and team leadership, we strive to deliver work that is proactively managed and safely completed ahead of schedule and under budget. We will evaluate all Mentor-Protégé and other SBA programs to deliver the highest value to our customer.

REPUTATION Over the 20 years we’ve developed a solid reputation for excellence, built upon adherence to a set of values: Integrity, Quality, Safety, Commitment and Teamwork. Let us put that reputation to work on your next project.
